This training opportunity will briefly review some basics of proposal development and then focus on preparing proposals for the Department of Water Resources Prop. 84 Integrated Regional Water Management grant programs. The workshop will cover topics such as refining your project concept, writing a scope of work, estimating budgets and schedules, and defining measures of performance. Estimation of project benefits and costs will also be discussed. The current funding environment will be discussed, with suggestions about identifying appropriate options and opportunities.

The workshop content will be similar to our previous grant writing workshops.

ALL ARE WELCOME TO ATTEND - RSVP by April 22 REQUIRED

The workshop will be especially targeted to disadvantaged communities and Native American tribes. Please RSVP or direct questions to Maya Weinhart at maya@inyo-monowater.org or 760.924.1008.
