### Section 2.15 of MOU

A Member may withdraw from the Group and MOU at any time. A letter, resolution, or similar document signed by the Member's designated representative or other appropriate authority within the Member's organization shall be provided to the Group to complete the withdrawal. If a Member has not attended a RWMG meeting or otherwise participated in the IRWMP process in 12 months or more, the Member will be asked to consider its signatory status and withdraw from the MOU if the Member is not able to commit to attending meetings or otherwise participating. If no response from the Member is received within 30 days, that Member will be unilaterally withdrawn from the MOU. Written records documenting the process will be maintained. A withdrawn Member can at any time re-sign the MOU to be reinstated as a Member. As all meetings are open to the public, withdrawn Members can still attend meetings and participate in discussions but cannot vote.
